

Vein Specialists of the Carolinas Supports Social Distancing by Offering Telemedicine

What Is Telemedicine?

Telemedicine is simply an appointment with your healthcare provider from home using your computer, iPad or Phone.

Vein Specialists of the Carolinas Offers Telehealth Appointments

New Patient Appointment so you don't have to delay getting your vein care needs met. We can drop ship your compression garments at no charge so you can begin your conservative therapy immediately if your insurance requires.

Follow Up Appointments for our existing patients so your care is uninterrupted, and you can have your questions and concerns addressed.

Vein Specialists of the Carolinas is proud to offer Telehealth to our patients. If you would like to schedule an appointment with us through Telehealth - please let our receptionist know when you call or make that selection on our appointment form through the website and someone from our office will be in touch to provide instructions. (Will insert appointment form link here).

Social Distancing has caused a Decreased Activity Level for many people. For those with venous disease or a history of DVT this may increase your risk of developing a DVT. Currently our offices remain open. We are doing rule out DVT studies in our offices as always for new and existing patients so they don't have to go to the hospital. We are following all cleaning and sanitizing procedures mandated by the Center for Disease Control (CDC) and Occupational Safety and Health Administration (OSHA) in both the waiting and clinical areas.

If you have any questions please don't hesitate to contact our office. Your health and safety are our top priority. Thank you for trusting Vein Specialists of the Carolinas with your vein health.
